

Talking to Your Eye Doctor

Be Ready for Your Appointment ✓

Take the [Dry Eye Quiz](#) and bring your results with you.

Provide important information

- How often and how long have you used artificial tears?
- How dry eyes affect your daily activities
- Do dry eyes make it hard to wear your contacts?

Prepare to ask questions

- Do I have Chronic Dry Eye (CDE) disease?
- Are my eyes making enough of my own tears?
- What are all my treatment options?
- Is RESTASIS® right for my type of CDE?

Make Sure You Get Screened on Your Visit ✓

- Tell the front desk you have a medical appointment to get screened for a type of Chronic Dry Eye disease
- Also remind the office technician that you want to get screened
- Ask your eye doctor for your screening results

Be Your Own Advocate—Ask For RESTASIS® ✓

- You may be diagnosed with Chronic Dry Eye (CDE) disease caused by reduced tear production due to inflammation
- [RESTASIS®](#) is the only prescription for this type of CDE
- Ask your eye doctor if RESTASIS® may be right for you
